DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Species I, claims 1-19, in the reply filed on 1/11/06 is acknowledged.

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Light-emitting diodes (LED) incorporating a periodically modulated dielectric constant material are known in the art. However, there is no teaching or suggestion in the art of record disclosing an LED with a portion, formed on a plane substantially parallel to a light-emitting surface of the LED, having a dielectric constant periodically modulated with respect to the in-plane direction of the plane substantially parallel to the light-emitting surface in combination with a member provided on the side of the light-emitting surface of the LED for diffusing light emitted from the LED. Independent claims 1 and 19 contain this allowable subject matter and are therefore deemed allowable along with claims 2-18 which depend on claim 1.

Claims 20-24 are also deemed allowable as they are directed to a Species for which claim 1 was determined to be generic, i.e. the allowable subject matter mentioned above is contained within independent claim 20 and claims 21-24 depend on claim 20.

Art Unit: 2891

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
